### DESCRIPTION:

**R**ocky Mountain's Pipeline was first introduced back in that epic year of 1998 as the freeride machine of choice for pioneers Richey Schley, Brett Tippie and Wade Simmons, aka the 'Fro Riders. Who, through movies like Kranked made the original Pipeline more than a little famous.

With its original yellow and purple paint, unified rear triangle and Marzocchi Z1 fork, it was a bike made to drop off and descend anything and pedal back up for more. BC's back country being very devoid of lift lines, and well, lifts back then... Come 2016, Rocky have re-introduced the legend. Does the new 'baby-fat' bike live up to its namesake?
